3. POINT OF DIVERSION

	The location of the proposed dam is (use intersection of dam centerline and stream centerline where applicable): One dam in the quarter of the quarter of the quarter of Section, more particularly described as being near a point feet North and feet West of the Southeast corner of said section, in Township South, Range East/West (circle one), County, Kansas, in, along and across (stream or watercourse name):					
4.	The project will (complete all that apply): be feet long, feet high, have a :1 upstream side slope, and :1 downstream side slope, feet top width, and cubic yards of fill. Site name (was) or (will be) completed					
	Further description:					
5.	The maximum quantity of water desired is acre-feet per for initial filling of the reservoir to be diverted at the rate of all natural flows not needed to satisfy all vested rights and prior appropriation rights.					
6.	The quantity of water for indirect use (seepage loss and the average annual potential net evaporation loss from the surface of the water originally impounded in the reservoir for beneficial use) will be acre feet per calendar year. See K.A.R. 5-6-3 for potential net evaporation for Kansas.					
	Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can NOT be increased. Please be certain your requested maximum quantity of water is appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.					
7.	PLACE OF USE					
	Please provide the legal description of the permanent pool of the proposed reservoir (the pool at elevation of the lowest uncontrolled opening). Please designate the legal description by providing the fractional part of the Section, Township, and Range.					
	You may attach any additional information you believe will assist the Division in processing your request.					
8.	Please indicate the proposed type(s) of recreational use (boating, fishing, swimming, fish and wildlife benefits, etc.):					

9. Please attach a reservoir area capacity table and inform us as to the total acres of surface drainage area above the reservoir.

Page	e 3 File No
10.	Progress of construction (check the appropriate line and enter requested date):
	Construction was started or was completed://20
	Construction has not begun. Planned date to begin construction://20
11.	The application, plans and specifications <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
(a) The location of the proposed dam should be plotted as described in Paragraph No. 3 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
(b) The names and addresses of the landowner(s) $\frac{1}{2}$ mile downstream and $\frac{1}{2}$ mile upstream from your property lines must be shown.
(c)) The location of the permanent pool described in Item 7 should be shown by crosshatching on the topographic map, aerial photograph or plat.
(d) The design, construction, operation, and maintenance of the dam must conform to the requirements of the rules and regulations adopted by the Chief Engineer. Applicable regulations are K.A.R. 5-40-1 through 5-43-5, including Engineering Guides 1 and 2. Please visit our web site, www.accesskansas.org/kda/ or contact our office to obtain those rules and regulations.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.
	The relationship of the applicant to the proposed place where the water will be used is that of(owner, tenant, agent or otherwise), and he/she is authorized to make this application on behalf of the interest(s) affected.
	The owner(s) and spouse(s) of the property described in Item 7, if other than the applicant, is (please print):
	(name, address and telephone number)
	(name, address and telephone number)

INSTRUCTIONS

- 1. Incomplete applications will be returned to applicant. Make sure you have filled in all blanks and checked all applicable squares. Plans and other materials as required by K.S.A.82a-301 to 305a and relevant Rules and Regulations must accompany application.
- 2. Questions regarding environmental impacts may be referred to the following environmental review agencies:

Kansas Corporation Commission Kansas Dept of Health & Environment Kansas Forest Service Kansas Biological Survey State Conservation Commission Kansas State Historical Society Kansas Dept of Wildlife and Parks

FEE SCHEDULE effective July 1, 2002

Use schedule No. 1 to determine the fee for storage of water as requested in Item No. 5 or Item No. 6, whichever quantity is greater. Use schedule No. 2 to determine the fee for the construction of a dam for which a permit is required under the Obstruction in Streams Act. The total fee due to the Kansas Department of Agriculture is the sum of both fees.

1. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET FEE

0-250 \$200.00

More than 250 \$200.00 plus \$20.00 for each additional 250

acre-feet of storage or any part thereof.

2. The fee for processing an application for a permit to construct a dam under the Obstructions in Streams Act is:

STAGE OF CONSTRUCTION FEE

Pre-construction \$200.00

Construction in progress \$500.00

(started prior to approval by the Chief Engineer)

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE
